

Jay finds subtraction really hard. When he sits down at his table to do his work, he doesn't know what to do.

Choice 1

Jay chooses to copy the answers from a friend.

Choice 2

Jay chooses to ask his teacher for some extra help.

Consequences?

Leo's Mum tells him it's time to go home because it's nearly tea-time and she still has to cook tea. He doesn't want to go as he's enjoying playing.

Choice 1

Leo chooses to listen to his Mum.

Choice 2

Leo chooses to ignore his Mum.

Consequences?

Harry's sister Ruby is a really good footballer and wants to join the school's football team which only has boys on it.

Choice 1

Harry tells Ruby it is a bad idea.

Choice 2

Harry says, "Why not? Girls like sports too!"

Choice 3

Harry doesn't give an opinion either way.

Consequences?

You find a cool robot toy in the playground.

Choice 1

You give it to an adult because
you know it belongs to someone else.

Choice 2

You keep it for yourself
because you really like it.

Consequences?

There is a new boy in your class. The last time he played with you in the playground he was too rough and pushed people so they fell over. Now no one wants to play with him and he's started pushing people in class too.

Choice 1

Give him another chance; he might be pushing people because he's lonely and unhappy.

Choice 2

Ignore him because you don't want to get hurt.

Choice 3

You decide the 3rd choice...
